

## Usage

### EVENSWISS® Retail Line

#### CLEANSING

A thorough cleansing program must purge all types of impurities Oil-based substances such as excess sebum and makeup as well as Water-based substances such as old skin cells, dust, bacteria, and perspiration.

Carefully clean the skin area to treat with EVENSWISS® Facial Cleansing Milk and afterwards refresh it with EVENSWISS® Facial Tonic.

- Dispense a dab of about 2.5 cm in diameter with about 3 g of EVENSWISS® Facial Cleansing Milk.
- Gently massage the milk into the skin in circular strokes, dissolving the impurities and drawing them out from within the skin.
- Rinse away with lukewarm water.
- Press the pump of the EVENSWISS® Facial Tonic two to three times to dispense a dab with about 2-3ml of the tonic
- Gently apply the tonic onto the skin in circular strokes.

#### REJUVENATING SERUM

- EVENSWISS® Rejuvenating Serum helps reduce the appearance of wrinkles, tightens and leaves your skin with radiant beauty
  - The main active ingredients in EVENSWISS® Rejuvenating serum, Dermatopoietin® Peptide Complex do not penetrate the skin. IL-1 $\alpha$  acts on the skin's surface and sends signals to the skin depth. Therefore it is very important to apply the serum on cleaned skin.
  - Press the pump of the EVENSWISS® Rejuvenating Serum two to three times to dispense in your clean hand 2-3ml of the serum
  - Gently apply the EVENSWISS® Rejuvenating Serum onto the skin in circular strokes.
  - To allow the serum to fully absorb wait 1 minute before moisturizing the skin.
-
